ON OUR MINDS

The latest topics fueling the work of GWI's Wellness Communities Initiative

We are thrilled by the release of the [Build Well to Live Well](#) report, a landmark report representing much of the essence of our work, and the first of its kind to size and analyze the \$134 billion global wellness lifestyle real estate and communities market.

This 150+ page report – made available for free by the Global Wellness Institute - finds that real estate and **communities that intentionally put people's health at the center of design, creation and redevelopment are the next frontier in residential real estate.**

Read the [research highlights](#) released earlier this year, including key findings, the Top 10 markets for wellness lifestyle real estate today (inclusive of wellness communities), future trends, and reported pipeline inclusive of over 700 projects in operation or development.

In 2018, our work will be focused on showcasing many of the findings and discussions brought forth in this report, and look forward to sharing our latest thoughts with you in the coming months!

Until next time, we will be building well to live well. Cheers!

Mia & The Global Wellness Communities Initiative Team
